## Expert Opinion Tarsar Marsar:

**Neil Bhuta:** Tarsar Marsar has been one of the most fabulous experiences of my life. As an avid trekker, I would say it's been one of the best experiences in Kashmir so far. A trek that lingers on in your memory for a long and below is a list of why I love this twin lake trek.

- 1.) It gives me an experience of intimacy. I got an opportunity to walk by the shores and experience the lakes Tarsar and Sundarsar ambiance by being in close proximity with them.
- 2.) Sundarsar has a secret passage that leads to the other twin Marsar Lake. It's a spectacular view as the clouds would just gush by your side, and within minutes Marsar would be out of your sight as the fluffy clouds cover it up with their magnanimity.
- 3.) The Jagmargi Plain, which welcomes you an hour before you reach Sundarsar, is a beauty to witness. The variety of flowers and spread of green that you witness here is something beyond imagination. You may find it difficult to cross this patch as every time you step ahead, and you would be crushing a flower underneath your feet.
- 4.) The Shekwas Campsite is an experience a trekker must-have. It's rare to find a campsite that is nestled by three valleys, and that's what Shekwas Campsite is all about. Sweeping mountains, the soft grass to walk upon, and that sunset views, phew! This undulating landscape is a confirmation that some divine source is at work and creating miracles in our lives.
